The Morval Foundation

The trustees of the Morval group of charities, including The Ruston Bequest and The New Chickering Fund, and the trustees of The New Beechfield Fund, are very pleased to announce that they have merged their activities into one organisation under one administrative board. This will enhance their ability to be of service to the Christian Science movement.

It is still our primary objective to help senior and deserving Christian Scientists to stay in their own homes, but any Christian Scientist who has financial challenges may feel free to apply for an application form, which is available from the Administrator. Each application will be considered on its own merits. Applicants should normally be in receipt of any state benefits to which they are entitled.

If you know of any dedicated Christian Scientists who may benefit from our help then please encourage them to ask for an application form. Alternatively, if you would like to support this activity, then your donation will always be welcome and may be sent to the Administrator.

This is a CD of organ music performed by James Cook on the Organ in the First Church of Christ, Scientist, Edinburgh. The title draws inspiration from the words of the architect Mies van der Rohe who had a vision that artistic work could be produced with minimal resources. Although the Edinburgh organ has only 8 stops the CD demonstrates that, because of the instrument's quality, integrity and disciplined design, it is capable of handling a wide range of music.

The 23 Tracks on the CD include music by Bach, Handel and Mendelssohn, as well as contemporary British composers Malcolm Archer and Christopher Tambling. Several of the tracks focus on interpretations of two hymns from the Christian Science Hymnal -216 "O he who trusts in God's protection" (tune: Neumark) and 252 "O Word of God, most holy" (tune: Herzlich Thut Mich Verlangen).
