# The Morval Foundation

The trustees of the Morval group of charities, including The Ruston Bequest and The New Chickering Fund, and the trustees of The New Beechfield Fund, are very pleased to announce that they have merged their activities into one organisation under one administrative board. This will enhance their ability to be of service to the Christian Science movement.

It is still our primary objective to help senior and deserving Christian Scientists to stay in their own homes, but any Christian Scientist who has financial challenges may feel free to apply for an application form, which is available from the Administrator. Each application will be considered on its own merits. Applicants should normally be in receipt of any state benefits to which they are entitled.

If you know of any dedicated Christian Scientists who may benefit from our help then please encourage them to ask for an application form. Alternatively, if you would like to support this activity, then your donation will always be welcome and may be sent to the Administrator.

# Reading Room Building Project Appeal

"I knew about Christian Science in the year 2001. After my first year at secondary level I have been studying Science and Health with Key to the Scriptures by Mary Baker Eddy. This helped me to change my spiritual life.

I will serve my Lord with all my heart, mind and strength (John 7: 37, 38)"

This introduction was made about 3 years ago and since then Denis Mhango, a young married man from Malawi, Africa, has indeed gone from strength to strength, holding weekly meetings of interested people and holding informal services.

He has been running a Reading Room of Christian Science for nearly 3 years in a rented building in the town of Rumphu. This has been open to the public 7 days a week, 52 weeks of the year from 8:30am - 12:00 and 1:30 - 5.30 every day.

He has had a great deal of interest and has been given gifts of books from Reading Rooms all over the world. His town Commissioners have recognised its value to the community and have granted him a plot of land on which to build a purpose built Reading Room which will also double as a recognised CS Society in due course.

Denis is set to take Class Instruction in South Africa later this year (2015).

The building will cost approximately £6,000 and has now raised **£2,800!**

I have met Denis and stayed in his house. I can advise on how to send money or you can send it to me Deborah Taubman at First Church of Christ, Scientist, Woodbourne Road, Douglas, Isle of Man IM2 3AG

## Less Is More

by James Cook

**£14.95**

This is a CD of organ music performed by James Cook on the Organ in the First Church of Christ, Scientist, Edinburgh. The title draws inspiration from the words of the architect Mies van der Rohe who had a vision that artistic work could be produced with minimal resources. Although the Edinburgh organ has only 8 stops the CD demonstrates that, because of the instrument's quality, integrity and disciplined design, it is capable of handling a wide range of music.

The 23 Tracks on the CD include music by Bach, Handel and Mendelssohn, as well as contemporary British composers Malcolm Archer and Christopher Tambling. Several of the tracks focus on interpretations of two hymns from the Christian Science Hymnal -216 "O he who trusts in God's protection" (tune: Neumark) and 252 "O Word of God, most holy" (tune: Herzlich Thut Mich Verlangen).
