**ADVANCE NOTICE OF A TALK TOUR  
BY AUTHOR AURIEL WYNDHAM LIVEZEY**

**DURING SEPTEMBER 2017**

Following successful talks at Longyear Museum, the Christian Science Benevolent Association Chestnut Hill, Boston, as well as in the home of a Christian Scientist from the Washington DC area hopes are high that Auriel will come to the United Kingdom to do a talk tour

**At this stage sponsors and venues are actively being sought for the talks to take place**

Auriel spent 30 years as a Christian Science practitioner before she withdrew her name from the Journal when she had a Christly message to publish her father's book **The Ultimate Freedom**.

She went on to publish her own writings including two musicals

Auriel tells of the surprising results of publishing her father's book and of its joyful acceptance around the world for over 23 years; why it is so popular with all religions; what can be learned from its success about our future as Christian Scientists.

Auriel will also share ideas of hope and healing based squarely on the writings of Mary Baker Eddy

As a citizen of the world Auriel was educated in Australia, Canada, England and America, and travelled to many parts of the United States giving talks and addresses  
Auriel's home is in Southern California

Actual dates for the talk tour will be sent to those expressing an interest in due course  
Talks will last approximately two hours

# The Morval Foundation

The trustees of the Morval group of charities, including The Ruston Bequest and The New Chickering Fund, and the trustees of The New Beechfield Fund, are very pleased to announce that they have merged their activities into one organisation under one administrative board. This will enhance their ability to be of service to the Christian Science movement.

It is still our primary objective to help senior and deserving Christian Scientists to stay in their own homes, but any Christian Scientist who has financial challenges may feel free to apply for an application form, which is available from the Administrator. Each application will be considered on its own merits. Applicants should normally be in receipt of any state benefits to which they are entitled.

If you know of any dedicated Christian Scientists who may benefit from our help then please encourage them to ask for an application form. Alternatively, if you would like to support this activity, then your donation will always be welcome and may be sent to the Administrator.

# The Queens and Kings School, Port Harcourt, Nigeria

This lovely photo shows some of the children who attended our Summer Free Holiday lessons in August 2016. Some days we had over 300 children from the local community.

The morning devotions at the School start with a hymn from The Christian Science Hymnal then a Bible passage is shared with the children and its metaphysical meaning in their lives. They then have a prayer followed by the Scientific Statement of Being (Science & Health page 468) and its correlative scripture from 1 John: 3. They then sing the Nigerian anthem and The Queens and Kings School anthem. At the end of the school day they have a prayer before going home.

## **Appeal for funds**

Thank you for supporting our appeal for funds for School Computers. We now have 20 computers. The next thing that we need is a **PRINTER**. This will be especially useful and cost-saving for printing out our own exam papers.
