Dear Bulletin Friends,

Snowdrops, catkins, and even some daffodils - "harbingers of Spring" are welcome sights all around us!

There are two changes to note in this edition. Firstly, we have had to raise the cost of advertising to all our dear, faithful advertisers, largely due to increased postal and printing prices. Next, we have decided to put all the outside adverts on pages 3 - 9, and adverts for our own products on pages 10 -16. We hope you will find things to respond to in both sections.

Do let us know whether you like this arrangement, or would prefer to return to the usual mix!

Our warmest wishes to you all,

Bruce and Gina

P.S. Do please remember that our full catalogue contains many other products, and is available online, or through the post on request.

Postage for orders from The Art Store Ltd

Orders within the UK £5.00

Orders outside the UK £10.00

We will have to charge a supplement at point of posting for heavier items

Exploring a Path to Christian Science Nursing

Would you like an opportunity to express your love for God and mankind in a practical way?

Are you interested in exploring a career as a Christian Science nurse?

Would you like to know more about the ministry of a Christian Science nurse?

Three accredited Christian Science nursing organisations in Europe are pleased to announce a new program in support of Christian Science nursing. Each organisation will provide a general introduction to the ministry of Christian Science nursing, established by Mary Baker Eddy in the Manual of The Mother Church, Article VIII, Section 31.

One- or two-week sessions can be provided at the following locations:

LIME TREE HOUSE

These organisations are accredited by The Commission for Accreditation of Christian Science Nursing Organizations/Facilities, Inc.

The program is open to members of The Mother Church aged 18 +.

Program dates are flexible and can be adapted to individual needs.

For further information, please contact the Christian Science Nursing Manager at the locations listed above.

Travel expenses (within the UK and Europe) and room and board will be provided.

McNeil Trust Edinburgh, Scotland

A quiet haven for students of Christian Science

The team at McNeil Trust is delighted to present its accommodation, shown on the middle floor of the photograph to the right. This exceptional two-bedroom apartment – ideally suited for prayerful rest and study – offers a spacious, modern interior with beautiful south-facing views, in a convenient central location.

We are taking bookings from students of Christian Science – for short stays, on a self-catering basis – and look forward to welcoming you.

The Story Of My Pilgrimage

by Emmy Elisabeth Austin

A member of First Church of Christ, Scientist, Bourne-mouth, who had known Emmy Austin and had her book, offered a copy to The Art Store so that we could make it available to the public once more. As it is now “in public domain” we are happy to do that.

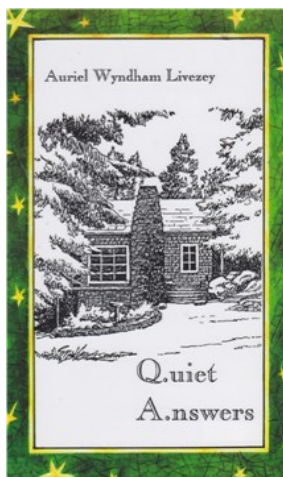

This is a very personal story of a lady who trusted God absolutely. She started her pilgrimage after her introduction to Christian Science. She knew that God would always take her all the way and she never doubted His guidance.

There is much to inspire us all in this small book.

Quiet Answers

by Auriel Wyndham Livezey

£8.95

From decades spent in the Christian Science practice, Auriel tackles many questions about answers - why we get them and why we don't. Subjects such as what happened to parenting in the '60s, and how the work at hand leads to employment, are accompanied by the whimsical illustrations of Hank Richter.

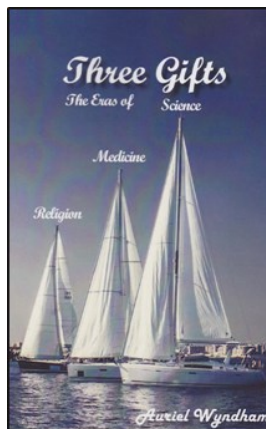

Three Gifts

by Auriel Wyndham Livezey

Why are the churches diminishing?

Why is religion encountering rough seas?

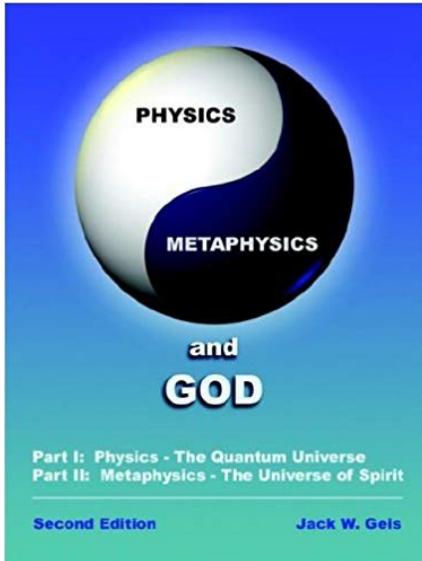

Religion, medicine, science are represented at a special conference on the subject. Will they all be sailing into the future together or will religion be left behind? The past, present and future for the three could be surprising

Physics Metaphysics and GOD

by Jack W. Geis

Throughout Part I of the book the author quotes from notables such as Eugene Wigner, John Wheeler, Deepak Chopra, Larry Dossey, Fred Wolf, Amit Goswami and Edward R. Close on the subject of basic quantum physics and philosophy. In varying degrees each believes that observation of quantum phenomena and resultant interpretations involve consciousness. That is, consciousness plays a significant, if not primary role in interpreting or even shaping reality, God.

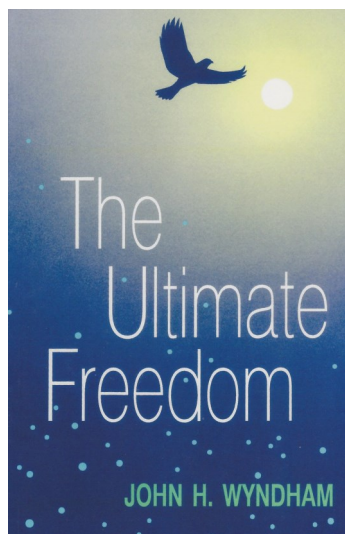

Each ascribes to consciousness a mental nature, but not necessarily a wholly spiritual nature independent of matter, space-time. Here is where the author and the above-mentioned begin to "part company." The author believes that beyond the quantum and quantum phenomena lies the realm of Spirit

In Part II the author discusses the phenomena of spiritual healing, or healing by prayer. No other book on the market brings in the works of Christ Jesus in a book that discusses both physics and metaphysics in the way the author does. The author presents documented healings occurring in the present age through prayer to substantiate his claim for the presence of God (Mind) and the spiritual nature of man and the universe.

The Ultimate Freedom

by John H Windham

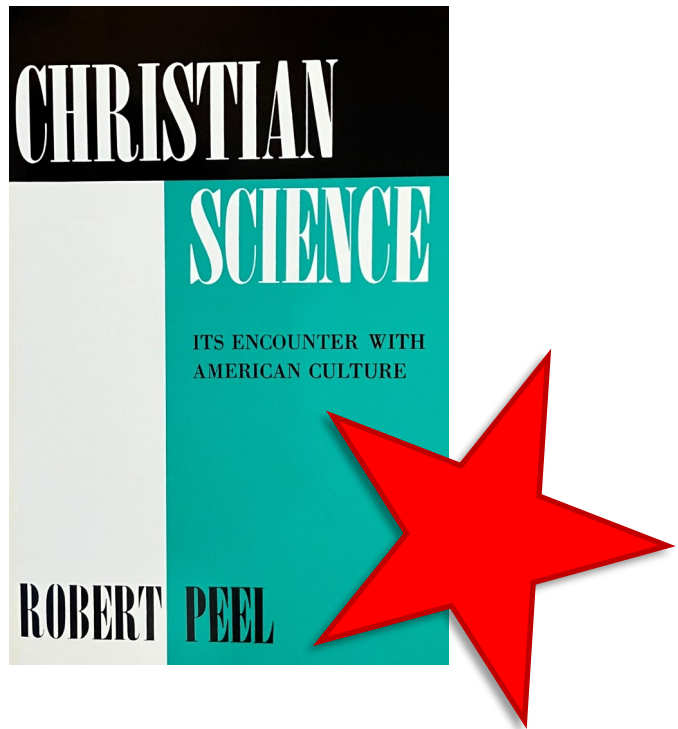

This true, spiritual adventure story begins when the author is captured on the island of Java during the Second World War. The way he finds his freedom during his three years of captivity makes for inspiring reading. After the war the author takes the reader on further spiritual adventures to do with employment, income, economic freedom, and his work with the United Nations. The author later lectured worldwide, in four languages, on the subject of spiritual healing.

Lectures and Articles on Christian Science

by Edward A Kimball

This book is a record of the work of one dedicated Christian Scientist. But Kimball would not have wanted anyone to believe the concepts of Christian Science were original to him. As he said in one of his lectures (referring to the Discoverer and Founder of Christian Science, Mary Baker Eddy, and her foundational book, "Science and Health with Key to the Scriptures")

"Although not attempting to use her phraseology or to republish any part of her book it is proper to say that no Christian Scientist does more in making such an explanation than to reproduce in part or to reiterate what she has already written and taught on the subject."
